## A STRANGE SIGHT AT SEA.

A COLUMN OF GRAYISH SMOKE TOWERING IN THE AIR.

People on the Shore Unable to Solve the Mystery But Nearly All Believe It to Be a Volcano and the Cause of the Recent Earthquakes--Aid for the Sufferers.

SAVANNAH, Sept. 10.—A small column of grayish color was noticed at 1 o'clock, towering into the air from the sea at a spot apparently twenty to twenty-five miles northeast of Tybee Island lighthouse, at the mouth of the Savannah river. The column gradually increased in size until 2:30 o'clock, when it obtained its maximum, and since that hour has neither increased nor decreased. The light house keeper and summer residents on Tybee Island supposed that a water spout was approaching, and were at first greatly alarmed.

The column remained stationary, however, and thus dispelled the water-spout theory. It was then noticed that the column was undoubtedly one of smoke instead of water and the belief became general that a volcano had begun to rear its head above the surface of the sea.

A later report from Tybee and observations taken from high buildings in this city definitely locate the smoke as directly east of Hilton Head light, at the entrance to Port Royal harbor. The smoke can be distinctly seen from elevated positions in this city, and the belief is unanimous that it arises either from a volcano or a vessel on fire at sea. It is almost certain that guns would be fired or other signals of distress made.

The first earthquake shock on Tuesday night had plainly come from a northeasterly direction, and this fact, coupled with Professor Mendenhall's theories leaves little doubt that the base of the recent disturbances is at sea, somewhere off the coast between this city and Charleston. The appearance of a volcano in the vicinity mentioned would therefore not be surprising. A tugboat reports that the smoke arises from St. Helena island.

## AID FOR CHARLESTON.

The Distress Not Exaggerated and Relief Called For--The Response.

BOSTON, Sept. 10.—The executive committee by Mayor O'Brien, chairman, has issued a circular for distribution among Bostonians, stating that private advices show that the newspaper reports of Charleston's needs are not exaggerated, and calling for the subscription in Boston of at least \$50,000 to the relief fund.

From Buffalo, New York.  
BUFFALO, N. Y., Sept. 10.—So far \$1,400 have been subscribed here for the Charleston sufferers, and of this sum \$1,000 has been sent by express to the Mayor of Charleston. More money will be sent immediately.

## Brooklyn's Gift.

BROOKLYN, N. Y., Sept. 10.—The total contributions to the Charleston sufferers at the mayor's office up to noon, amounts to \$3,289.

## A Shaking House.

SAVANNAH, Ga., Sept. 10.—An attempt will be made at once to induce one of the government scientists to visit the Pontdown district, of Dodge county, in this state, where a shaking house is attracting great attention. The structure is the home of "Wolf" Parker, a white planter. It is built of logs. Some two weeks ago, without any apparent cause, the building commenced to shake, and the occupants rushed out. Nearly everything in the house was thrown into disorder. Since that time the house has been shaking at intervals of every two hours. The people are now convinced that the phenomenon was a forerunner of the earthquake, and excitement prevails as the house continues shaking, and there is fear that a geyser or some other volcanic terror will spring from the ground beneath the structure.

## MEXICAN REVOLUTION.

The Belief that a General Uprising is Imminent Steadily Growing.

MATAMORAS, TAMAUCAPO, Mex., Sept. 10.—The revolution against the general government is assuming alarming strength in this state. A prominent Federal officer gives this estimate of the strength of the pronunciados: Mamico Cruz, 300; El Coyote, 250; Juan Rosales, 150; Manuel Valapena, 150; Pedro Davila, 100; Juan Hernandez, 50; in all 1,000 well mounted, and who are to win victory or fight to the death.

The Federal administration winks at the revolution as against friendly state governments, and shows no quarter to rebels against the general government. They must win or die. The active revolutionary strength in Nuevo Leon and Coahuila is full as great as in this state. The belief that a revolution is imminent is gradually forcing itself on the minds of even the most conservative political leaders. The concerted action of the local revolutionary leaders in the frontier states plainly indicates that they are acting in harmony under the direction of an able chief. It is asserted on good authority that the name of this chieftain will soon be made public.

## To Exterminate the Revolutionists.

NEW LAREDO, Mex., Sept. 10.—Capt. Garcia Perez, commanding a company of the Tenth cavalry, has left here to join the Fourth cavalry, under Col. Algriz, which left Guerrero Tuesday. They have orders to exterminate Coyote revolutionists. Col. Teran, with a cavalry company, arrived here on the Mexican National train at 7 o'clock, last evening and will join the chase after Coyote. It is reported that the revolutionists are camped fifteen miles southwest of here. There is a feeling of uneasiness throughout the city.

## Artist Material Destroyed.

NEW YORK, Sept. 10.—A fire occurred in the store of G. H. Berry, dealer in artists' materials at 144 Broadway, Williamsburg. Before the flames were checked a loss of \$12,000 was caused on the stock and \$1,000 on the building.

## New Jersey's Fourth District.

SUMMERVILLE, N. J., Sept. 10.—The Democratic convention of the Fourth congressional district nominated J. N. Padcock for congress.

## WESTERN UNION TELEGRAPH.

President Norvin Green Submits the Quarterly Report of That Company.

NEW YORK, Sept. 10.—President Norvin Green has submitted the quarterly statement of the business of the Western Union Telegraph company to the board of directors. The net revenues of the quarter ending September 30, inst., based upon nearly completed returns for July, partial returns for August, and estimating the business for September, will be about \$1,200,000. Add surplus July 1, \$4,309,893.03. Total \$5,509,893.53. From which, appropriating for interest on bonds, \$123,615; sinking funds, \$20,000 and \$143,615, leaves a balance of \$5,366,218.83. The gross earnings from current land service on commercial messages continue to show an increase, and would be very satisfactory but for the great amount of business being done between the large commercial centers without profit, if not absolute loss.

The cable business under the prevailing low rate has increased largely, and it is confidently hoped that the business will soon reach a volume that will yield a revenue equal to any ever before earned, and permanently established cheap cables services. The executive committee recommend that no dividend be declared. After the meeting, Mr. Green said that the company had every reason to congratulate itself on the situation. He denied the story that there was any intention of buying the Bankers & Merchants. Notwithstanding the fact that the effect of the conservative policy on passing the dividend had been discounted to a certain extent in the street, the stock began to go up immediately on the receipt of the news. It opened at 67 1/4 and at 2 o'clock stood at 68 3/4.

## TAYLOR BROTHERS.

The Two Candidates for Governor of Tennessee Have Agreed on a Joint Canvass.

NASHVILLE, Tenn., Sept. 10.—Col. Alfred A. Taylor and Col. Robert L. Taylor, brothers and Republican and Democrat candidates, respectively, for governor, will begin the campaign at Madisonville, the executive committees having agreed upon a joint canvass.

There is talk in Democratic circles of electing Col. Robert L. Taylor to the United States senate next January, as the successor of Whitthorne. Should this plan be carried out, Col. Taylor in the event, he should be chosen governor, would be succeeded by the speaker of the senate, for which office Gen. W. A. Quarles, Democrat, is prominently mentioned.

## Labor in New York.

NEW YORK, Sept. 10.—The strike of 400 men in Hannan's shoe factory has been settled, the men withdrawing their demand for an increase of pay and the firm agreeing to employ only union men. The lockout of the united cutters has been declared ended, and the men have been ordered to return to work. The result is unfavorable to the men, as the sixty seals employed during the lockout will not be discharged. The agreement was effected at a conference of the arbitration board of District Assembly No. 49, of Knights of Labor and the manufacturers. Many of the men are expected to repudiate it and to refuse to go to work on the terms proposed.

## The Effect of Hanging Kiel.

OTTAWA, Sept. 10.—The Liberals carried Haldimand county yesterday by 300 majority, a gain of seven votes over four years ago. The result is a severe rebuff to the government, who have been making strenuous efforts to carry the county. All the ministers have stumped the district, and 123 Indians, supposed to favor the government, were enfranchised. The feeling on account of the hanging of Kiel, however, was too strong to be overcome. The defeat of the government in that county will have a strong influence on the coming general elections.

## No Uprising Among the Piute Indians.

CARSON, Nev., Sept. 10.—A report was current here Monday that the Piute Indians were exceedingly wrought up over the arrest of a member of the tribe, for killing a white man during a drunken quarrel, and that some of the settlers had become uneasy. Rumors from the Piute reservation, who reached here to-day, say there is not the slightest danger of an uprising, and never has been. They also state that none of the settlers in that neighborhood have deserted their homes, and that the rangers are not arming for self-protection.

## Geronimo Enroute to Florida.

BOWIE STATION, Sept. 10.—Capt. Lawton has arrived at Port Bowie with all of the Apache prisoners, except four bucks and three squaws, who failed to surrender as promised. Gen. Miles immediately placed Geronimo, Natches and the rest of the band under a strong guard and hurried them to Bowie Station, where a special train was in waiting to bear them to Fort Marion, Fla. The captives are in charge of Capt. Lawton who will see them safely to their destination. The missing Indians are expected in a day or two.

## Two Negroes Mortally Wounded in a Duel.

MEMPHIS, Tenn., Sept. 10.—The election in Mississippi county, Arkansas, on Monday, resulted in the defeat of W. B. Haskins, Republican, who has been sheriff for eight years, and who is the most noted and successful thief catcher in this part of the country. He has a National reputation, having secured the conviction of a large number of murderers, not only in his own county, but all over Arkansas. During the progress of the election at Modena, two negroes, one a Republican and the other a Democrat, fought a duel with pistols, and both were mortally wounded.

## Incendiary Fire in a Tenement House.

SALEM, Mass., Sept. 10.—A fire of rags saturated with kerosene and blazing fiercely was found under the attic stairs of a large tenement house Nos. 9 and 11 Beaver street, which contains ten families, numbering sixty-two persons. The flames were extinguished with small loss. The police are working on a promising clue to the incendiary.

## Three Deaths in One Family.

PORTSMOUTH, O., Sept. 10.—Miss Kate Burns, daughter of Robert Burns, died of consumption. Last week her sister, Mary, died of the same disease, and two days later, Cornelius, a son, was brought home from Indianapolis a corpse, from the same disease, making three deaths in the family within ten days. All were grown up.

## ENFORCED EVICTIONS.

THE SENTIMENT OF THE ENTIRE COUNTRY INFLAMED.

A General Boycott Waged Against the Police and All Who Take Any Part in These Transactions--How the Government Can Save Part of the Rents.

LONDON, Sept. 10.—In consequence of the enforcement of evictions on the property of the Marquis of Clauricarde, at Woodford county, Galway, the sentiment of the entire county has become inflamed to a high degree. Notices have been posted throughout the district urging tradesmen to abstain from furnishing the police and others who assisted in the evictions with supplies of any kind whatsoever, and to a large extent these appeals have been complied with. The police have torn the bills down repeatedly, but they have been immediately replaced by others, and the tree trunks, gate posts, walls and fences, are covered with them.

The Pall Mall Gazette expresses fear that the ministry, instead of yielding to the more generous and statesmanlike impulses of Lord Randolph Churchill, is being driven to coerce Ireland by the dominant authority of Lord Hartington. "The door opened to conciliation by Lord Churchill and Mr. Matthews," it says, "is rudely slammed in the face of the Irish peasantry by Lords Salisbury and Hartington. The payment of full rents this autumn is impossible. Evictions should be stayed on the payment by the tenant of a reasonable medium of rent, the just sum to be ascertained by experts. The government would thus save 70 or 80 per cent of the rents instead of losing the whole insisting upon an impossibility. What Lord Churchill must do, if he is not constantly overruled by Salisbury and Hartington, is to construct a 'Spendlow & Jenkins' arrangement with Mr. Chamberlain, who stands committed to the staying of evictions. Mr. Chamberlain's neutrality on Mr. Parnell's bill will be another count added to the long list of services which that gentleman has failed to render to the cause he declares he has at heart."

## Honor to Prince Alexander.

LONDON, Sept. 10.—A dispatch from Sofia states that the town of Lom-Palanka was handsomely decorated in honor of Prince Alexander. A number of triumphal arches were erected on the prominent thoroughfares. Great enthusiasm prevailed, and the prince was frequently cheered by the populace. The vice president of the national assembly delivered an address of welcome to Prince Alexander, in which he said that Bulgarians would never forget that they owed Prince Alexander everything, and that they would continue to consider him their ruler. In conclusion the vice president said that it was the hope of all Bulgarians that the prince would speedily return to Sofia to again assume the reins of government. The prince, in reply, said that he was happy when the Bulgarians were contented, that he was ever ready to assist them when in need of his aid, and that he hoped to see them soon again.

## Excitement in Waterford.

LONDON, Sept. 10.—Twenty-one prisoners were remanded at Waterford, charged with pouring boiling water mixed with lime on the heads of the police and bailiffs and the little town is in a fever of excitement. Men are flocking in from all points of the county, each carrying a stout stick and many having other weapons in places easy of access in readiness for defense in case of an attack by the police, and possibly for offensive use should the increasing excitement culminate in an assault upon the officers of the law and their aids and sympathizers. Further disorder is expected and it is predicted by the most peaceably disposed on both sides, that in the present state of feeling it can be but a few hours distant.

## Arrival of the Prince at Turn Severin.

TURN SEVERIN, Sept. 10.—Prince Alexander, accompanied by M. M. Stambuloff, Karaveloff and nearly all the Bulgarian ministers have arrived here. He was received by the Roumanian troops who lined the route from the depot. The prince took an affecting leave of his ministers and the officers of the Bulgarian army who accompanied him. The prince will go direct from here to Darmstadt.

## Minister to Egypt.

PARIS, Sept. 10.—The Journal Des Debats says it learns that Count D'Aubigny, the secretary of the French Embassy at London, will be appointed minister to Egypt, for the purpose of combating English influence in that country.

## Bulgaria's Future Government.

PARIS, Sept. 10.—The Le Matin declares that Bulgaria will have no prince in the future, but a Russian general will command the troops and a regency will be formed, having the semblance of an independent government.

## England Not Powerful Enough.

DUBLIN, Sept. 10.—The United Ireland, Mr. Parnell's organ, says that England possesses no power by which she can collect the Irish landlords' tribute, in the face of an organized, level-headed people.

## Looking to the Relief of Tenants.

DUBLIN, Sept. 10.—The Catholic bishop of Mayo, has urged the government to adopt temporary measures looking to the relief of tenants in order to prevent outrages.

## Fearing an Indian Raid.

DENVER, Col., Sept. 10.—A private letter from Fort Duckens, Utah, reports fears of an Indian raid. Col. Brenton has telegraphed for more troops. Anxiety is felt for the safety of a government train, which is on its way thither from Fort Bridger.

## Our Chief Signal Officer.

SAN FRANCISCO, Sept. 10.—The steamer Starbuck has sailed for Panama, having as a passenger our chief signal officer, Gen. Hazen. He will stop at Guatemala until the arrival of the next steamer, when he will go to Washington.

## An Ohio Convict Captured.

PHILADELPHIA, Sept. 10.—Ed Cartin, who recently escaped from the Ohio penitentiary, where he was serving out a ten-years' sentence for arson, was captured here as he was about to start for Sacramento.

## THE SECOND RACE.

White Wings That Sail Over the Sea. Mayflower Reported Ahead.

NEW YORK, Sept. 10.—The second day of the international yacht races was ushered in by a nasty drizzle, which increased into a steady rain as the morning advanced, with a pretty strong breeze from the east. As the racers were towed down to the Scotland light ship from their respective anchorages they were followed by a large number of steamers and tugs, which kept up a continued fusillade of whistles and fog horns.

As the contesting yachts neared the light ships there was a thick fog lifting and settling, with a strong wind blowing about twenty miles an hour. It was then decided that the start should be from this point, and both yachts were cast off from their tugs to prepare for the start. When the starting gun was fired the cutter was the first to cross the line, but she was speedily followed by her Yankee opponent, who looked as if he meant to quickly get even and pass the Englishman.

At 2:30 o'clock the tug McCalden arrived and reported that the Mayflower was three-quarters of a mile ahead. The weather was still very foggy.

At 4:15 o'clock the fog outside the Hook was so thick that it was impossible to make out the exact relative position of the yachts. The probabilities were that the result of the race would not be known until late in the evening. The wind had fallen to almost nothing, and there was a possibility that the race would not be finished.

## Detective Norris Arrested for Blackmail.

TUFTON, O., Sept. 10.—John T. Norris, the detective, arrived here in company with Deputy Sheriff Sullivan, of Logan county, with a handful of warrants for Bohemian oats and red line wheat swindlers. In less than fifteen minutes leaders of the gang were seen in consultation. A sensation was created by the arrest of Norris on a charge of blackmail, based on an affidavit sworn to by Edward S. Clark, saying that Norris had tried to extort the sum of \$500 from him in the case of a certain note, and by holding over him a warrant for his arrest on a charge of obtaining the signature to the note under false representation. The affidavit was prepared under the advice and direction of Judge McCauley, attorney for the oats men. Norris' bail was fixed at \$500, which he has been unable to get up to this time, but which will probably be obtained. The hearing will occur before Squire Jaynes on Saturday, and some interesting developments may be looked for.

## Suicide From Honor.

YOUNGSTOWN, O., Sept. 10.—Thomas Maloney, aged thirty, an employee of a nut and bolt factory, was found insensible in some weeds in the rear of a lumber yard. A physician, who was summoned, declared he was suffering from the effects of some poisonous drug, and that he could not live. Maloney left home, telling his wife he was going to Cleveland to visit relatives. From that time until a short time before he was found unconscious nothing is known of his movements. Half an hour before he was found he was seen wandering about groaning and apparently in great agony. Maloney signed a temperance pledge a year ago, and he has kept it religiously. He has often declared to his wife that if he ever broke it he would kill himself. It is thought he went on a spree and carried out his threat.

## Submitting a Proposition to the Creditors.

BALTIMORE, Sept. 10.—At the meeting of the creditors of William J. Hooper & Son, a proposition was submitted to form two corporations of the creditors to operate the seine and twine factory in Baltimore and the mills in North Carolina until the claims of all creditors are paid. This was antagonized by many of the creditors who favored the acceptance of fifty cents on the dollar. It was finally decided to send printed notices of both propositions to each creditor and have a vote taken upon their merits. In any event the Herald, newspaper, is to be sold, as it is believed to be a losing concern, and the creditors, not wanting an elephant on their hands, will have nothing to do with it.

## Canadian Tug Labeled.

BUFFALO, N. Y., Sept. 10.—The Canadian steam tug Harvey Nelson, arrived here on Tuesday and was labeled at the instance of the Aetna Insurance company for gross carelessness in running a schooner ashore four years ago, while towing her into this port. Some time during last night or early this morning the crew put the ship keener ashore and started out of the harbor at full speed for Canadian water. The affair will probably be investigated by the port officials.

## Illinois Gas Well Increasing in Strength.

CERRITOS, Ill., Sept. 10.—The natural gas well discovered here some time ago continues to grow in strength. A recent test showed the pressure to be twenty pounds to the square inch, steam gauge measurement and the gain to be five pounds. The flow is considered of sufficient strength for lighting the town, and the laying of pipes to dwellings and business houses will be begun in a few days.

## Another Victim of the Toy Pistol.

YOUNGSTOWN, O., Sept. 10.—Last Sunday Christopher Welmer, aged fourteen, fired a blank cartridge from a toy pistol, and wounded his left thumb. The wound was neglected until Monday, when a physician extracted the gun-wad that had lodged in the flesh. Last night he was attacked with lockjaw. The attending physician says there is no chance for the boy's recovery. This is the third case of lockjaw that has occurred in this city in the last month.

## Alderman Jaehne's New Trial.

NEW YORK, Sept. 10.—District Attorney Martine said that he had received no notice, official or otherwise, that the court of appeals stood out to three against granting Alderman Jaehne a new trial. Counselor Newman, one of Jaehne's chief defenders, said: "I have information which leads me to firmly believe that the court voted four to three in favor of granting a new trial, but no official notice has yet been served."

## Robbed and Left for Dead.

LITTLE ROCK, Ark., Sept. 10.—News of a shooting murder in Stone county has been received here. Giles Miller, a stockman, a resident of Missouri, was waylaid while buying cattle, shot three times and left for dead on the roadside. He was found by a farmer who happened to pass along the road. He cannot live. He was robbed of \$900.
